BAKAEI SCANLATION

Message from Tora:

3 months laterrr... at least it's not going to be just one chapter, all of that wait meant 3 scripts of translations... But only two of them (this included) will be released this week. I don't have a cleaner to clean chapter 12 yet. I have more news later to announce when I release 11. Stay tuned.

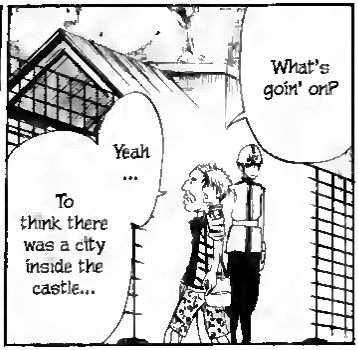
You can see that statue from outside but,
Up close, it really is unnecessarily huge.



What's goin' on?
Yeah ...
To think there was a city inside the castle...

Just who the heck is that guy?
I've heard it's of the person who made this world, newcomers.
Welcome to the Shadow Master's paradise.

I SAID TO STOP IT!
It's going to be hard to find your Master in such a crowded place, isn't it?

Ben, you bastard, so that's how you moved those guards back at Detona's base.
Using your shadow to manipulate an object.
Gil.
Siva, that's so cool..
To us, our puppets are like family...
They're treasures packed full of our dreams.
So Call, feel like ya life's been changed?
WELL, IMMA IDIOT TOO, YA KNOW.

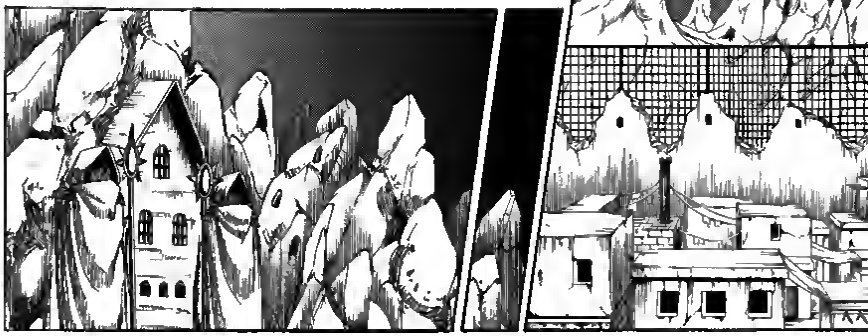
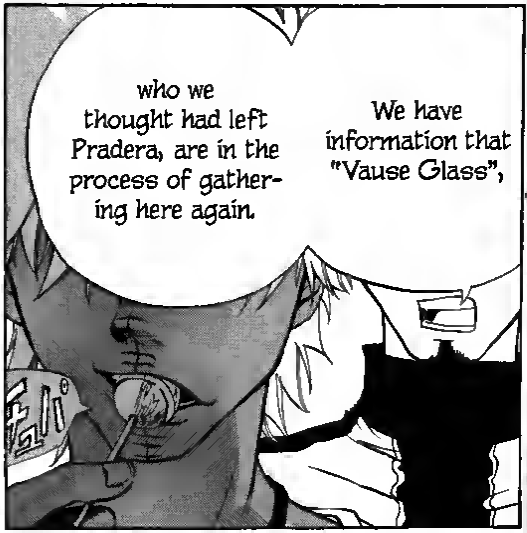
That there idiot believes that



It's a pain, so read it to me.
Hmm.
SIR!

Colonel Nosta, here is today's report.



We have information that "Vause Glass", who we thought had left Pradera, are in the process of gathering here again.

The cigar dealer, Kanja, is bringing in goods tonight at midnight.
Yeah, yeah.
Two new Shadow Masters came in today. They apparently applied.
Also-

Vause Glass has?
Chronos Army
Colonel Nosta
Do they have something here to make them rush?
For example ...
Until now their strong point was keeping their movements hidden,
So why is it now that they're being exposed?
Hm?
!
If I may, Colonel Nosta.
Maybe something regarding a newbie who purposefully applied?

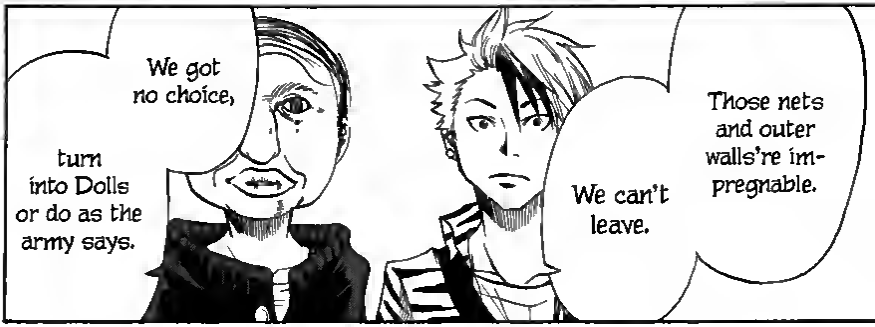
Don't get so angry, Sergeant.
IDIOT! ASKING SUCH A QUESTION TO THE COLONEL!
Why do thieves like Vause Glass interest you?
HUH? YES!
You really want to know, right?
It's fine, really.
MY APOLOGIES! I WILL MAKE SURE TO INFORM HIM SO-
Um..?
Then... I see! here!
Information fee.
?
You see, Vause Glass betrayed the army and this guy named Kaito might be there.
We wanna catch that guy, got it?
YES...

I only gave one bit of info, so it's only one ear.
AHHHH
WHAT?
How naive.
What? You didn't actually think you would get that for nothing, did you?
AHHH
COLO-NEL!
Whoops!
Huh? It's back-wards.
Just trust in what a former doc says, K?
But don't worry. I can sew some-thing like this back together in a sec.

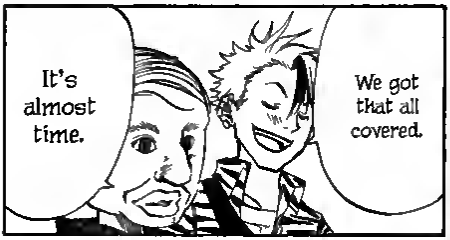
Ah.
By the way that thread is made of my shadow, so if I get too far away it'll disappear.
See?
Rips
Geez, Sergeant you're too serious...
CONTINUED SCREAMS IN THE BACKGROUND
AH... YES!
Alright, let's go Sergeant.
Let's meet those rats

YA'RE TOO LOUD MASTER!
YA CAME HERE TA SAVE ME!?
You are too...
Every-one here's already given up.
We can't get outta here.
I'm happy, but it's im-possible.
Huh?
I totally thought ya'll had gott'n caught...
Ya guys saw it when ya came, yeah?
The outer wall's too thick to be bombed through.
Plus, they put up those Anti Shadow Master net.
Those nets that caged up the Dolls.

There's been tons of people who've tried ta leave, but when ya fail it's over.
They'll suck up your shadows.
Ya see, if you're within a certain distance from those nets,



We got no choice,
turn into Dolls or do as the army says.
We can't leave.
Those nets and outer walls're impregnable.



It's almost time.
We got that all covered.
